

PROFILE

**Python, django
developer.**

I am Sarang, basically a fresher who is eagerly waiting for an opportunity in IT career. I am a mca passout and i have well basic knowledge in python with Django framework using pycharm and visualcodestudio. Also know to implement Rest Api, opencv, pandas, Tkinter. I assure that i can grasp anything easily by putting my heart into it. So take it as a request "give me a way to become who i am and be a part in my succes story".
